Sanyo's amazing new super slim 32" LCD Panel is the SA's first weather-resistant TV display. Due to its IP56 weather-resistant rating, the panel can be used in a wide variety of environments - Concerts & Festivals, Outdoor Corporate Events, Pub Gardens, Hotel bathrooms, Luxury Health Spas - the possibilities are endless! Water, steam and humidity are no problem at all for the stylish panel, with its flexible design, stunning picture quality and choice of viewing options the Sanyo Weatherproof Panel is unrivalled in the world of modern flatscreen TV. The LCD Panel can display TV, DVD or interactive data which gives you the choice and flexibility to show whatever information you require.
